Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 2, 4-8, 10-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claims 1 and 10-13, phrases "per unit the use time" and "per unit the number of use times" are indefinite as to meaning.

Dependent claims inherit those defects.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 1, 2, 4-8, 10-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Enomoto et al. (U.S. Pat. 5,830,121) in view of Noguchi et al. (U.S. Pat. 6,307,332) for the reasons set forth in numbered paragraphs 7-11 of the previous Office Action, paper number 20071208.

Regarding the newly added language concerning what the information is intended to "indicate", such language constitutes nonfunctional descriptive material (e.g., data) which does not define any structural and functional interrelationships between the data and other claimed aspects of the invention. In other words, what the information "indicates" does not define

Art Unit: 3739

distinguishing structure and is given no patentable weight. The "information" (i.e., data) in the claim, no matter what it is intended to represent, is anticipated by the data disclosed by Enomoto et al.

Response to Arguments

5. Applicant's arguments filed April 3, 2008 have been fully considered but they are not persuasive.

Regarding claim 10, Applicant was correct in assuming that claim 10 was rejected for the same reasons as the remaining claims. This intention is supported by the fact that claim 10 is similar in subject matter to the other independent claims, indicated as rejected on the Office Action Summary, and contains method steps, which were mentioned in the body of the rejection. This typo has been corrected in the Office Action.

Regarding the newly added language directed to what the information is intended to represent, as explained above in the rejection, such language does not define a structural or function difference over the applied prior art and thus does not distinguish over such art.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3739

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
